

STEPHEN J WILDRICK

OBJECTIVE I want to deepen my understanding of the Human Design Process, specifically in the context of mobile and web applications, while operating within an Agile environment.

EMPLOYMENT **Sunnova Energy - September 2021 to October 2024**

Manager, Digital Product Design

Recruited Front-End Developers and Product Designers for key roles within the organization while managing a team of four Product Designers. Initiated the development of the Sunnova design system for both consumer and dealer platforms. Worked closely with stakeholders, marketing teams, project managers, developers, and customers to shape the Sunnova app's direction and feature requirements as defined by Project Hestia.

Trilogy Education - July 2020 to September 2021

UX/UI Instructor

Instruct UX/UI students in an on-line classroom. This course focuses on helping students with ideation of UX to the design of the UI and then using Front-End technologies to build out their portfolios.

PrizeLogic - October 2008 to April 2020

Senior Interactive Developer - July 2017 - April 2020

Excellent communication with project managers and clients on troubleshooting website issues. Produced promotional websites from concept through deployment, with a responsive, mobile-first approach. Worked with UX and UI designers for technical feasibility. Updated responsive web standards and maintained various promotional templates. Performed peer code reviews and mentored junior developers.

Interactive Developer - October 2008 - July 2017

Worked closely with other team members on the development team from kickoff to site launch. Acquired a strong code base with HTML5, CSS/SCSS, and JavaScript while working with a back-end developer in a .NET framework. Produced various Adobe Flash/After Effects based promotions that won Web Awards and is featured on FWA.com. Proven track record of building quality promotions under tight deadlines for a wide range of clients including Disney, McDonald's, Subway, Hershey, Ubisoft, and Pepsi.

eMarketing - May 2005 - October 2008

Web Designer/Web Developer

Designed web layouts for Kraft Foods, GROHE, ACCO Brands, Novartis, and Anchor Bay Entertainment properties.

Cisco Systems Inc. - January 2004 to January 2005

Multimedia Developer. Duties include developing and editing e-learning content used online and on CD-ROM. Produce creative animation sequences used for demos and advertising. Learned to record, edit and coach voice talents in digital audio formats used in e-learning material.

EDUCATION Bachelor of Arts In Visual Communications Collins College - 2002

SKILLS Adobe Creative Suite	HTML5 / CSS / SCSS / JS
Figma / Sketch / InVision	Bootstrap / Foundation
Design System Implementation	Audio / Video Capabilities
Human Design Process	Animation / Greensock / VideoJS

PERSONAL Dedicated to quality work, personal integrity, and the ability to bring my knowledge and experience into a dynamic work environment.
